

Work Smart, Stay Safe

Discover how Riftsoft delivers best-in-class cloud document creation and control software

Riftsoft is a new generation of intelligent cloud-based asset management tools that will help you achieve greater efficiencies through smart work instruction creation, approval and distribution. Riftsoft will allow your employees to work smarter and achieve safer work practices.

Introducing Rift Create, a fully automated end-to-end document creation and distribution platform built specifically for intensive asset management industries.

- Create all your work instruction documents using standardised templates and author them without fear of making mistakes and omission of critical safety information.
- Provide your employees with the most up to date information on how to perform maintenance activities efficiently and safely.
- Locate and make changes to existing documents with ease and update with built in workflow approval.
- Distribute authored documents to your CMMS with integrated connectors to reduce time and increase operational effectiveness.

RIFT Create is cloud-based and available on any web browser on any device.

Cast iron encryption and cyber-security built in as standard.

Document templates are rapidly designed using WYSIWYG editors and distributed to authors for approval.

Authors mass generate documents within minutes.

Changes to existing document data is quick and performed individually or in bulk.

Creating and maintaining document templates that keep up with industry change is a challenging and expensive process. Combined with the fact that document content is forever changing, it soon becomes clear that what is correct today becomes obsolete tomorrow and the whole process needs to be repeated time and time again for hundreds if not thousands of documents.

Deep two-way integration to **SAP** and other ERP and CMMS and direct access to content servers such as SAP DMS, Documentum, OpenText and SharePoint.

Rift Create is intuitive and simple to use, accessed from the cloud with no software to install. It requires no complicated training and is plug and play ready to produce...
